SKILLS

PROGRAMMING
MERN Stack
HTML • CSS • JavaScript • BootStrap
React.JS • Redux • Node.js
Express • Tailwind • MySQL

Familiar:
JavaScript • • React • Bootstrap

TOOLS
Git • GitHub • Vs Studio • Postman
Photoshop • AWS • Figma

PROJECTS

THE GAME HUB   React based single page website
June 2023 – Present

Checkout **Netlify** and **GitHub source Code**
- Implemented dynamic features allowing users to search for games, sort by genre and release date, and filter based on available platforms.
- Employed Vite as the build tool for efficient and quick development.
- Integrated Chakra UI and Tailwind CSS to create visually appealing and user-friendly components, enhancing the overall look and feel of the application.
- Established unidirectional data flow using React concepts, such as props, hooks like useState and useEffect, and useRef for efficient state management and updates.
- Gained valuable experience in front-end development, UI/UX design principles, features like loading animations and a dynamic dark/light mode switch.

CALORIES TRACKER APP | JavaScript Based Project
Checkout **Netlify**. and **GitHub source Code**
- Created "Calories Tracker" web app to set daily limits, log meals, and track progress using dynamic progress bar.
- Employed JavaScript for efficient DOM updates, highlighting real-time interactivity.
- Utilized pure OOP principles with class-based approach to optimize code structure.
- Designed responsive UI with Bootstrap, integrated npm libraries, and Webpack for production readiness.

FLIXX ENTERTAINMENT | Movies website using JS
Checkout **Netlify**. **GitHub Source Code**
- A movie and TV show recommendation app using JavaScript for logic and API handling.
- Designed UI with CSS and Tailwind CSS for grid layout, ensuring an appealing user experience.
- Incorporated Swiper js library for interactive moving cards on the homepage and implemented basic routing for seamless page transitions.
- Gained expertise in fetching and updating data from APIs to dynamically update the user interface.

EXPERIENCE

PRODIGY INFOTECH | Front-end Developer Internships
Marrch 2023 - May 2023 | India

- HTML, CSS, JavaScript and React.Js.
- Building the scalable site with clean code on production grade.
- usisng Github to work with team closely and unit testing for pre build components
